Conditions of Sale

Venue

Foveran Deer Park sales complex, Foveran Deer Park, Haka Valley, Kurow, North Otago, 8km from Kurow (will be signposted).

Deer Inspection

Deer may be inspected in the paddock at any time prior to the sale by arrangement. On DAY OF SALE deer may be inspected from 11.30am.

DNA Identification

All Foveran master sires and our entire stud female breeding herd have now been DNA profiled (for confidence in the accuracy as to our breeding).

Insurance

Insurance facilities are available at the office. Insurance is the responsibility of the purchaser and any stock left on Foveran is strictly at the purchaser's risk.

Conditions of Sale

The sale will be conducted by Rural Livestock Limited with the conditions of sale as set down by the New Zealand Stock and Stations Agents Association, a copy of which is exhibited in the office on sale day.

Each lot becomes the purchaser's property and risk at the fall of the hammer.

Warranties and insurance are covered under separate headings.

Terms are strictly cash unless prior arrangements are made with the auctioneers. Accounts not paid within 14 days of sale shall bear interest, at 24% per annum from the date of sale.

If payment is not received within 30 days from sale, reservation of title will revert to Foveran for security purposes until account is paid in full, including interest owing.

The sale is conducted exclusive of GST.

A buyer's commission of 5% is payable to non-participating companies and recognised independent agents introducing and accompanying purchasers to the sale providing prior arrangements (no later than 24hrs prior to sale) are made with PGG Wrightson.

Intending purchasers are required to register with the auctioneers prior to the commencement of the sale.

Conditions of Sale cont./ Guarantee

No animals, embryos or semen sold by Foveran Deer Park or their germplasm or any subsequent progeny or germplasm, including the semen and germplasm of that progeny, may be supplied to a third party without the written permission of Foveran Deer Park.

This condition does not affect normal commercial deer farming or stud farming or the normal sales of semen or embryos as it only applies to entities with the primary function of commercial semen/germplasm activities.

It is a condition of sale of any animals, embryos, germplasm or semen sold by Foveran Deer Park that the purchaser agrees to include the following clause as a condition of any subsequent sale or gift of any animal, embryo, semen, germplasm or subsequent progeny or germplasm to a third party—"the purchaser acknowledges that it will not supply any animals, embryos, semen or germplasm to any commercial semen/germplasm marketing or sales entity, and will ensure that this clause is inserted as a condition of any sale or gift of any animals, embryos, semen or germplasm."

TB Status

Our herd status continues to be a C10 classification.

Guarantee

All sale stags are guaranteed in terms of their genetic performance and temperament through DNA profiling. This does not include sickness or injury. All deer in this sale are tested for Johnes and are deemed sound for use as a sire stag. Any stag that does not meet the standards mentioned above will be replaced or a full credit given to use at a subsequent Foveran Deer Park Sale.

Disclaimer

Number of antler points – owing to the lateness of stags this year at the time of selection, we have estimated the number of points we expect to see at the time of sale. Please note these are estimates only and we give no guarantee as to the actual number of points on sale day.

Foreword

Dear Clients and Friends,

Welcome to our 37th Annual Elite Sire Stag sale.

This year we are featuring our biggest spiker from this years crop as Lot 1 in the sale. We estimate he has around 40 points or more. He was bred from our ET program and is specifically bred for his trophy potential. He is a Rigby x Davidson. He is certainly a show stopper and we look forward to hearing of his progress as he matures.

At our stag selection a lot of the stags weren't past velveting and so we haven't been able to estimate the number of points on each. However in the last few days they have really been pushing out and they look quite different now.

We can assure you there are some impressive antlers throughout the sale. The main part of the catalogue is 3 and 4 year olds and we have included a very few 2 year olds just to wet your appetite for what we will have on offer next year. Don't miss the yearling hinds at the back of the catalogue also.

As always the stags are guaranteed for temperament and performance and so you can buy with confidence knowing that we stand behind all of the stags on offer in this sale.

The sale stags can be viewed by appointment at anytime prior to the sale and from 11.30am on sale day. Do join us for lunch prior to the sale and a drink afterwards if you wish.

We look forward to catching up on sale day.

Kind regards,

Barry Gard & Staff at Foveran Deer Park.

Mission Statement

Our motto Breeding the difference

a term that best describes our intention for our deer stud at Foveran.

By continuing our intensive breeding programme in what we believe is the largest red deer stud in New Zealand, it is our intention to supply the NZ deer industry with the very best genetics for venison growth rates, velvet production, and also our fast growing high end trophy antler stags.

DBVs Venison growth rates. We continue to develop this major trait within our deer herd, with encouraging results. Our German herd for example, with Master sires such as Amadeus, Bonn, Wredeson Major & Red Baron leading the way, and some of our weaners at weaning in February topping out at 90kg. Yearling spikers to 155kg and 2 year olds to 253kg.

Velvet By identifying specific lines of deer for velvet production, we are constantly improving the performance per animal to improve not only the production levels per animal but also the components of velvet conformation. As a result our velvet herd continues to grow with fast improving results.

Trophy The fastest growing component of our deer industry at present. Foveran's commitment is to not only supply high end trophies for ourselves, but also to supply elite trophy genetics to the deer farming community. The continued improvement of our trophy herd is rewarding us with some massive red deer trophy antler heads with long-tined, heavy, wide, "wow" type configurations. Our German herd strategically crossed with European and English genetics has given us the opportunity to do that.

Temperament We continually manage and evaluate the herd for this important trait.

Schedule of Master Sires

2	HA 11.78kg	504 5/8 IOA
3	HA 15.5kg	641 IOA
4	HA 22.14kg	751 IOA

COMMENT: Cane has been bred here at Foveran. A son of the very heritable McCaw who has produced us so many top stags in previous sales. At 504 5/8 IOA, Cane was placed 4th in the National 2yr HA Competition. As a 3yr old he was placed 3rd in the 3yr section. This year Cane was place 2nd in the 4yr section of the Rising Stars competition with 751 IOA. His mass of antler is impressive and he is growing another massive head this year.

3		HA 16kg	611
4	300+kg	HA 23.6kg	668
5	300+kg	HA 22.88kg	712 6/8

COMMENT: Orlando played a big part in our breeding programme this year and will continue to do so going forward. At 668 IOA at 4yrs, Orlando was bigger than his sire Nixon at the same age. This year, his antler structure has started to tidy up and scored an impressive 712 6/8. At 5yrs, Orlando continues to impress us with his hugely heavy antler and impressive bodyweight.

5	HA 21.93kg	664 5/8
6	HA 23.28kg	690 2/8
7	HA 21.06kg	

COMMENT: Bred here at the stud, his sire Henry VIII has a sound reputation for leaving heavy beamed sons. Fitzroy's dam 9119 is a full sister to Prince Philip who was the SCI World Record sire for 2012. Her dam sire Lewis is also the sire of former SCI World Record sire Charlie Mac and Legend. Fitzroy's antler growth was affected last year but we are pleased to report that it has returned to normal this year. A super long and wide head which he passes on to his progeny.

5	253kg	HA 20.05kg	605 IOA 53pts
6		Damaged	
7			684 IOA

COMMENT: Gregor grew his best head to date this year and he was taken as a trophy at 684 IOA. Consequently we only have his 5yr old head to display as his 6yr antler was damaged. He was the sire of Lot 15 sold at our 2016 stag sale for \$45,000 and went on to be placed 3rd in the National 2yr HA competition. A very heritable sire who has left a huge legacy in our herd.

Age	Antler	IOA
3	HA 12.2kg 29pts	
4	HA 11.87kg 36pts	488
5		523

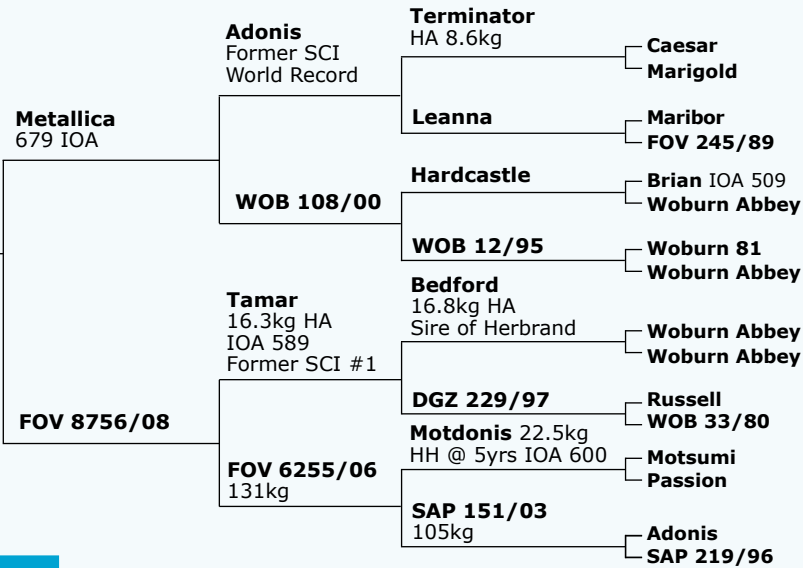

COMMENT: Stapleford was purchased from Malcolm Cane. He was one of an impressive line of Odysseus sons and shares his sire with McCaw and Houghton. Note that McCaw is Odysseus over a full sister to Kane and so we know this mix works well. Stapleford has strong front tynes and tops. His antler structure as a 5 year old improved markedly and he was looking to be as impressive as McCaw. Unfortunately he met with an accident and so we will never know for sure!

Lorde
4 Year son of Metallica

Lorde

Lorde

Age	Antler
2	HA 8.72 kg 32pts
3	HA 13.2kg 469 IOA
4	HA 13.5kg 475 IOA

COMMENT: Lorde was taken as an impressive trophy at just 5 years. He had a heavy beamed antler with a very wide spread typical of his sire Metallica (679 IOA). Note too his grandsires on both sides – Adonis and Tamar have both been previous SCI World Records.

5		HA 13.23 449 IOA

COMMENT: Vicktor was chosen as a replacement Pure Schulte Wrede German sire as he impressed us with his three year old stats. His pedigree is well respected at the stud also with Sebastian as his sire. Sebastian was the sire of Lot 1 at the 2014 stag sale, an impressive 2yr old sold to Ruanui at 194kg with a very strong 21 point antler. His grand sire, the great Amadeus, was a top all round sire for both bodyweight and antler structure. His grand dam 6666 is a top performing dam and has produced some exceptional 2 year old sires – most recently lot 28 at the 2014 stag sale – a 2yr old at 205kg with a 22 point antler also sold to Ruanui.

Purchaser:

Comment: Sire Rigby was over 600 IOA at just 3yrs of age. By 4yrs he was 706 IOA! His sire Leon is the highest scoring stag ever in the industry and the first and only to break 900 IOA. Dam sire Adonis was a former SCI World Record #1 and he appears in a number of pedigrees of top industry sires. Note to Brusnik (sire of Nixon and Huneric) on the bottom line. This stag had very strong well placed even front tynes. A head that has started strongly.

Comment: High scoring Orlando is the sire , he was a big bodied stag at over 300kg. Dam sire is McCaw and it is interesting that the dam is a very similar genetic mix to that of Cane., she is also the dam of Lot 2. This stag has strong fronts with a heavy beam that gets thicker as it goes up. He was a 33 point 2 year old last year and looking at the bulbous tops coming, we can expect at least that again this year.

Comment: Sire Alexander is developing a reputation for producing heavy beamed off spring. This stag has taken antler genetics to the extreme. It's not everybody's cup of tea but if you are looking for a high scoring trophy at maturity then this is the stag for you. He has at least 27 points up to the trey tyne if you count all the basal snags and big tops coming. Easily the heaviest antler in the catalogue.

Comment: Gregor was sold at 7yrs with 684 IOA on his head. An impressive sire. One of his 2yr sons was sold in our 2016 stag sale for \$45,000 and he went on to be placed 3rd in the National 2yr HA competition. This stag has thrown that way in his antler conformation. He has excellent tyne placement with T4's splitting 3 ways or more and we expect lots of big tynes in his royals. He is one of the most advanced in his antler development at selection in his antler development at selection with royals already forming.

Comment: Both McCaw and Amadeus have left a huge legacy here at the stud. Both stags have produced exceptional sons. McCaw is the sire of Cane (751 IOA @ 4yrs) and Amadeus is the sire of Sebastian and Grandsire of Vicktor, demonstrating his very heritable antler structure. This stag looks as though he is going to develop a big Amadeus style head with lots of tops coming at selection.

Comment: Sire Fitzroy has a long beam at 40 inches and a 32 1/2 inch inside span. We also have a couple of exceptional 2yr old sons coming through this year. Dam sire Apollo is a full brother to Discombe and Holy Oak. A very heritable mix. This stag has good front tynes. A nice even tidy head with tops just coming at selection. A big bodied stag.

Comment: Sire Gregor shares his sire Scipio with Morpheus, confirming the heritability of this line. His 2yr old son was sold for \$45,000 in our 2016 stag sale and he went on to be placed 3rd in the national 2yr HA competition. Dam sire Apollo again features as the dam sire, a full brother to Discombe and Holy Oak. This stag has a very heavy beam with big and possibly long tops coming.

Comment: Sire Gregor had an impressive head of antler at 684 IOA at 7yrs when we sold him. He would have easily broken 700 at maturity. Dam sire Amadeus with his big body and antler is the epitome of what a sire stag should be. Dam 1177 is a pure German. Amadeus' heritable antler style is coming through in this stag. Excellent tyne placement.

Comment: Sire Alexander almost always produces strong heavy heads of antler. Dam sire Apollo is a full brother to Discombe and Holy Oak and his contribution to this pedigree is evident in the antler structure. This stag has strong front tynes, a double right bey and tops just coming at selection time.

Comment: This stag is pure English, sire Fitzroy is impressive with his long and wide antler structure. Dam sire Prince Philip and also Woody on the bottom line are both former SCI World record #1 sires. This stag has strong front tynes and it looks like big multi tops are just developing at selection.
