## WELCOME TO OUR FOURTH RUPERT RED DEER SALE

10 Dec 2020

At the time of writing, 2020 is drawing to a close and it seems like a good opportunity to reflect on what will be an unforgettable year. The Covid-19 pandemic has forever changed what we perceive as “normal”, but more than anything else, it has forced us to take stock and truly appreciate our unique and fortunate situation of being a geographically isolated, sparsely populated, forward thinking little country at the bottom of the world. I can't think of anywhere else I'd rather be!

We were relieved and heartened to find that our blinkered, narrow-scope mission to breed the ideal velvet stag is still viable; despite the worldwide disruption to international trade, demand for New Zealand velvet has held firm. While there will be some strategic use of the situation to influence prices, in the medium term we feel that our strong position in the premium health/wellness market will result in real rewards for farmers who consistently produce sustainable, traceable, high quality velvet.

On farm, we have made a few changes with all the hinds now living at Woodbury Downs and the older mixed age velvetting stags taking their place at Scotland. All the deer were wintered on grass with silage, with some PKE available for the stags up until button drop. The deer wintered well and the MA stags rewarded us with a 0.4kg increase in average per head production overall, with the 594 MA stags (age 3 to 10) averaging 7.9kg/head for first cut velvet. To date, 191 two year olds have also been cut with an average of 4.3kg per head.

We are first and foremost a commercial velvet producing operation. The breeding stags we sell are simply a byproduct of our goal to produce outstanding velvet. The stags in this catalogue were selected from commercial mobs and received no special treatment, with no fancy nuts, grain or extraordinary supplements. This year's sale stag line up reflects what the velvet market demands; clean, tidy, well proportioned heads with traditional conformation.

For this year's sale, we have partnered with BIDR to enable bidders to take part in the auction from either the on-farm or online platform. We have been excited to see the rapid uptake of this innovative technology by our industry, and there is so much potential in this space for the future. The sale will be held at the home farm, Leamington.

Thanks for your interest,

Kiri

Argon has been highly valued for his contribution of clean, correct-styled velvet genetics which are well represented in his progeny, as seen in his standout son Axel.

# MR.DARCY

## Production:

Velvet 2 yr 5.9kg SA2    Velvet 6 yr 8.5kg SA2  
 Velvet 3 yr 6.5kg SA2    Velvet 7 yr 8.8kg SA2  
 Velvet 4 yr 6.6kg SA2  
 Velvet 5 yr 7.3kg SA2

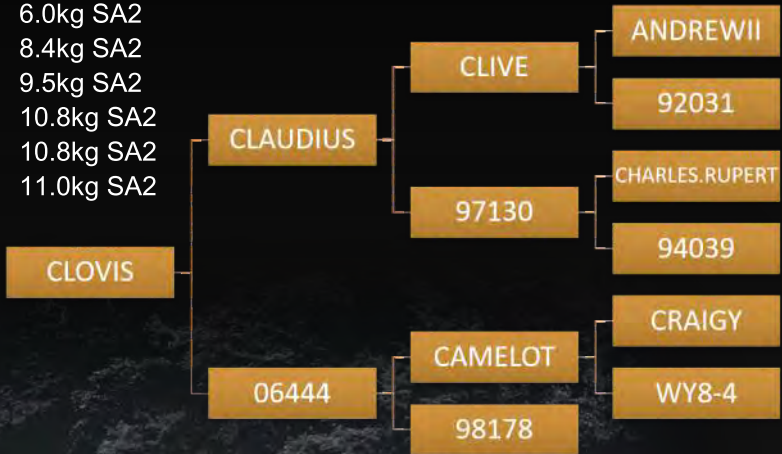

Mr.Darcy had extremely quiet temperament and tidy velvet, with a growing reputation for siring massive velvet producers including Lot 3 in our inaugural sale (11.1kg at 3 years). Strong regrowth genetics are an added bonus.

# CLOVIS

## Production:

Velvet 2 yr	4.4kg SA2

Strong influences from Grandsire Marx in this sire, with those long, clean tynes and beam. Zeus has provided a genetic base highly geared for velvet production; as a two old, this stag cut 0.4kg top quality regrowth and as a spiker he produced a total of 1.9kg of high value spiker over 3 cuts. A proven mix of style and weight genetics.

Clean, thick and heavy. Again Ronaldo has proven himself to be valuable master sire, throwing strong influences over any bottom line, in this case a Camelot hind. Camelot himself was a hugely important foundation sire for our stud, especially in terms of constitution and longevity traits with his offspring consistently continuing to perform into old age.

A beautiful and typically “Everest” head on this top sire. A very tidy pedigree going back to Argus on both sides will ensure that those exceptional style genes will continue to feature in future generations. Big bodied, the heaviest liveweight in the catalogue at 1 year and equal for second heaviest at 3 years. It was a hard decision to include this one in the sale and he will come with a reserve that reflects his value.

A definite favourite; at growing stage he stood out from the mob with a stunning head of perfect velvet, so it was especially gutting to find he'd taken a knock the day before he was due to be cut. The biggest animal in the catalogue but quiet as a mouse in the shed. Dam 03295 also produced Matai, the best of the Marx line and a valued sire stag with notable regrowth production. This stag continues the legacy, producing 3.2kg of high quality velvet over 3 cuts as a spiker and 2.1kgRG1 regrowth at 3 yrs (10Dec).
